

**Dave Jones Consultants***Captivating Practical Learning BIG Results!***FUELED by FEEDBACK FOR
LEADERS IN THE TRADES***Train and Retain Skilled Employees**How to give feedback in a way that creates commitment and accountability.*

OVERVIEW

This course is designed to help organizations in manufacturing, construction and trades build a highly accountable, self-motivated workforce. We focus on moving beyond compliance—where employees do what they have to do—toward commitment, where team members are truly engaged, motivated, and accountable for their work.

LEARNING OBJECTIVES

Participants will learn to provide feedback in a way that will:

- *How to give feedback in a way that creates commitment and accountability.*
- *Train and retain skilled employees, cultivating a workforce that is committed, capable, and self-directed.*
- *Foster self-motivation and accountability within teams, encouraging ownership and initiative.*
- *Build a culture of commitment over compliance, where employees want to perform, not just follow instructions.*
- *Apply actionable tools and feedback techniques that enhance performance and collaboration.*

By the end of the course, leaders, managers and foremen will be equipped to unlock engagement, inspire accountability, and sustain a motivated team that drives results.

AUDIENCE & GROUP SIZE

Designed for all leaders, managers foremen in Manufacturing, Construction and Trades who desire results and who want to make a difference in their workplace, **Fueled by Feedback for Leaders in Trades** is a **one-day** course. This instructor-led, in-person course delivered by **Dave Jones** will ensure participants receive hands-on training with real-life applications.

COURSE MATERIALS

Each participant is provided a workbook with reference materials. Each participant also creates additional materials, personalized to his or her own workplace situation. The combination of these two elements creates a manual that is used throughout the year.

COURSE LENGTH

Fueled by Feedback for Leaders in Trades is a 1-Day course.
